Ω-ZYME™ ULTRA - ULTIMATE DIGESTIVE ENZYME BLEND

Supplement Facts									
Serving Size: 1 Capsule					Servings Per Container: 90				
Amt. Per Serving %DV									
Ω-Zyme™ ULTRA Enzyme Relay Blend 536 mg *									
Protein Digestive Enzymes									
Protease Blend (4.5, 6.0)	80,000	HUT	Papain	280,000	FCCPU				
Protease 3.0	15	SAPU	Bromelain	225,000	FCCPU				
Peptidase	2,000	HUT	Neut. Bacterial Protease	4,000	PC				
Carbohydrate Digestive Enzymes									
Xylanase	575	XU	alpha-Galactosidase	450	GALLU				
Pectinase	16 endo-PGU		Amylase	25,000	DU				
Cellulase	725	CU	Fiber Digestive Blend	6 mg					
Invertase	225	SU	(Phytase, Hemicellulase, beta-Glucanase)						
Glucoamylase	50	AGU	Malt Diastase	275	DP				
Fat Digestive Enzymes									
Lipase	5,000	FLP							
Dairy Digestive Enzymes									
(Protease, Lactase)	53 mg								
Digestive Botanical Blend 25 mg *									
Ginger root extract, Turmeric root extract									
Trace Mineral Blend 5 mg *									
Ionic plant based minerals, Ionic ocean based minerals, Alfalfa									

* Daily Value not established
Other Ingredients: vegetable capsule. Wheat, dairy and soy are used in the fermentation of this product but are usually consumed during fermentation or separated from the enzymes during the final purification process.

Suggested Use:

Adults take 1 to 3 capsules with each meal.

- The ultimate digestive enzyme supplement, supporting gastrointestinal health and digestion through a highly potent, comprehensive formula that delivers higher activity per serving of a broader range of enzymes than other leading enzyme formulas.
- Provides 21 different digestive enzymes, each with a specific function to help your body process proteins, carbohydrates, fats, and difficult to digest foods like broccoli, nuts, seeds, beans, and dairy, increasing nutrient availability to the body.†
- Delivers a unique blend of digestive enzymes with activity optimized across the full spectrum of pH (acid/alkaline) levels that exist throughout the gastrointestinal tract.
- Contains a range of trace minerals, cofactors that activate enzymes and help them function properly in the body.
- Includes dairy digestive enzymes (lactase & specific protease) that support dairy product digestion.†
- Delivered via UltraZorbe™ 100% vegetarian capsules to ensure potency, eliminate the need for fillers and binders, and provide quick nutrient release through faster dissolution into the body. An independent study suggests UltraZorbe™ capsules dissolve more completely than other vegetarian capsules.
- Packaged in the state of the art, BioProtect® Packaging System which is superior as an oxygen and moisture barrier and sets an industry standard for protecting delicate ingredient integrity and effectiveness throughout shelf life.
- Gluten Free, Vegetarian

Why do you need digestive enzymes?

Enzymes are living catalysts and the key to good digestion. Present in all whole live foods but destroyed by cooking and processing, digestive enzymes break down foods into nutrients your body can readily digest and utilize.

The modern or Standard American Diet (SAD) is lacking in enzymes. Enzymes that help in the digestive process. Since we do not eat foods rich in enzymes, supplementation is a great way to get the enzymes you need for optimum digestion.

The body produces two types of enzymes - metabolic and digestive. When you eat cooked or processed foods, food enzymes are destroyed, forcing the body to supply all of the needed digestive enzymes.

Proper enzyme activity aids in healthy digestion.

How is Ω-Zyme™ ULTRA different from other digestive enzymes?

Ω-Zyme™ ULTRA is the ultimate high potency, broad spectrum digestive enzyme formula, providing 21 different digestive enzymes specifically selected to digest most of the proteins, fats and carbohydrates of a typical meal.

A Great Diet starts with Great Digestion

Probiotics - Why take probiotics to eat a healthy diet if your body is not absorbing the nutrients from the food you eat? Probiotics, when consumed in adequate amounts, control and control harmful bacteria in the intestinal lining, maintain normal gut flora, digestion and help to keep the lining of the gut healthy so that you can absorb the nutrients from your food properly.

Enzymes - You can eat a great diet. But if your digestive system can't break down the food you eat, your body may not receive all of the nutrients of a great diet. The breakdown of foods by enzymes is the first step in healthy digestion. Digestive enzymes work within the digestive tract to break down foods into simple, absorbable components, making it easier for you body to process around the stomach in your food.

Great Digestion starts with Garden of Life™

Primal Defense™ Ultra
The Most Comprehensive and Dynamic Formula Available

- The only probiotic with 100% soil-based probiotics that are missing from your diet.*
- Contains 18 different probiotics working together to support healthy digestion.†
- Unique food formulation with fermented cereal grains.

Omega-Zyme™ Ultra
The Most Comprehensive and Dynamic Formula Available

- Formulated with more enzymes of higher concentrations than other leading brands.
- Contains 21 different enzymes, including ones that support dairy digestion.†
- Formulated to work across the broadest pH spectrum of your digestive tract.

Empowering Extraordinary Health™

*Based on a study published in the Journal of Microbiology and Biotechnology.

Ω-Zyme™ ULTRA is a unique enzyme blend with optimized activity across the varying range of pH levels throughout the gastrointestinal tract, enabling the enzymes to survive high stomach acidity to be delivered to the small intestine in their intact and biologically active form for maximum digestive benefit.

Ω-Zyme™ ULTRA is delivered via UltraZorbe™ capsules and is packaged in the BioProtect® Packaging System.
